

## zehnder *fina*

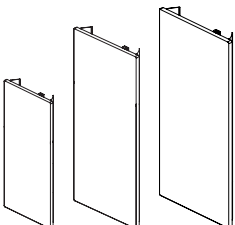

Elegant and efficient. The radiant heat from the large heating surface is particularly comfortable. Adjustable side panels extend the designer radiator right up against the wall. The mounting and technical components remain out of sight without interfering with the overall appearance. The smooth surface is easy to clean. Zehnder Fina is available in several gloss or matt colours and surface finishes. With its flat, minimalist design, Zehnder Fina blends into any modern bathroom.

Accessories: see page 11

Valves: see page 118
