Max. working pressure: 6 bar

Max. working temperature: 120°C

Powder coated RAL9010 white finish. Colour finishes are not available.

W† width excludes air vent and bushes (Additional 24mm).

The Garda is a high output, low content, extruded aluminium radiator, sectional in manufacture, supplied with a bracket pack comprised of wall fixing brackets, plugs, bushes and an air vent.

Where an intermediate sized radiator is required, additional sections can be purchased and added or removed as necessary by the installer.

Joining nipples, gaskets and an assembly tool must be purchased separately.
