Next-Gen Comfort. The Zehnder Way.

The new generation of Zehnder immersion heaters

We will make you fit for the future

With our new generation of immersion heaters, Zehnder is setting standards that go far beyond heating. Easy to install and with intuitive controls, these immersion heaters provide the maximum user comfort.

There is also a wide range of control options to suit every need.

Targeted radiator controls are another impressive feature, helping to reduce energy costs while reducing the environmental impact at the same time.

Comfort and variety to suit every need.

Get ready for the future with the new generation of immersion heaters.

This icon is displayed alongside all of our designer radiators that can be used with our new range of immersion heaters.

Clear advantages

- Simple and intuitive – with up to three control options
- The perfect solution for a wide range of individual needs
- Modern and elegant design
- Planet friendly and money saving too, through targeted energy use

State-of-the-art technology

- Adjustable surface temperature
- Temperature controls for each room
- Timer function
- Daily and weekly programming via the app
- Integrated energy efficiency in line with ecodesign requirements

Immersion heater IHD		4 - 5
Immersion heater IHC		6 - 7
Immersion heater IHE		8 - 9
Electric heating element integrated into the radiator		10 - 13

Freedom, Simplicity, Individuality – Perfectly tailored to your lifestyle.

The Zehnder Immersion Heater Design (IHD)

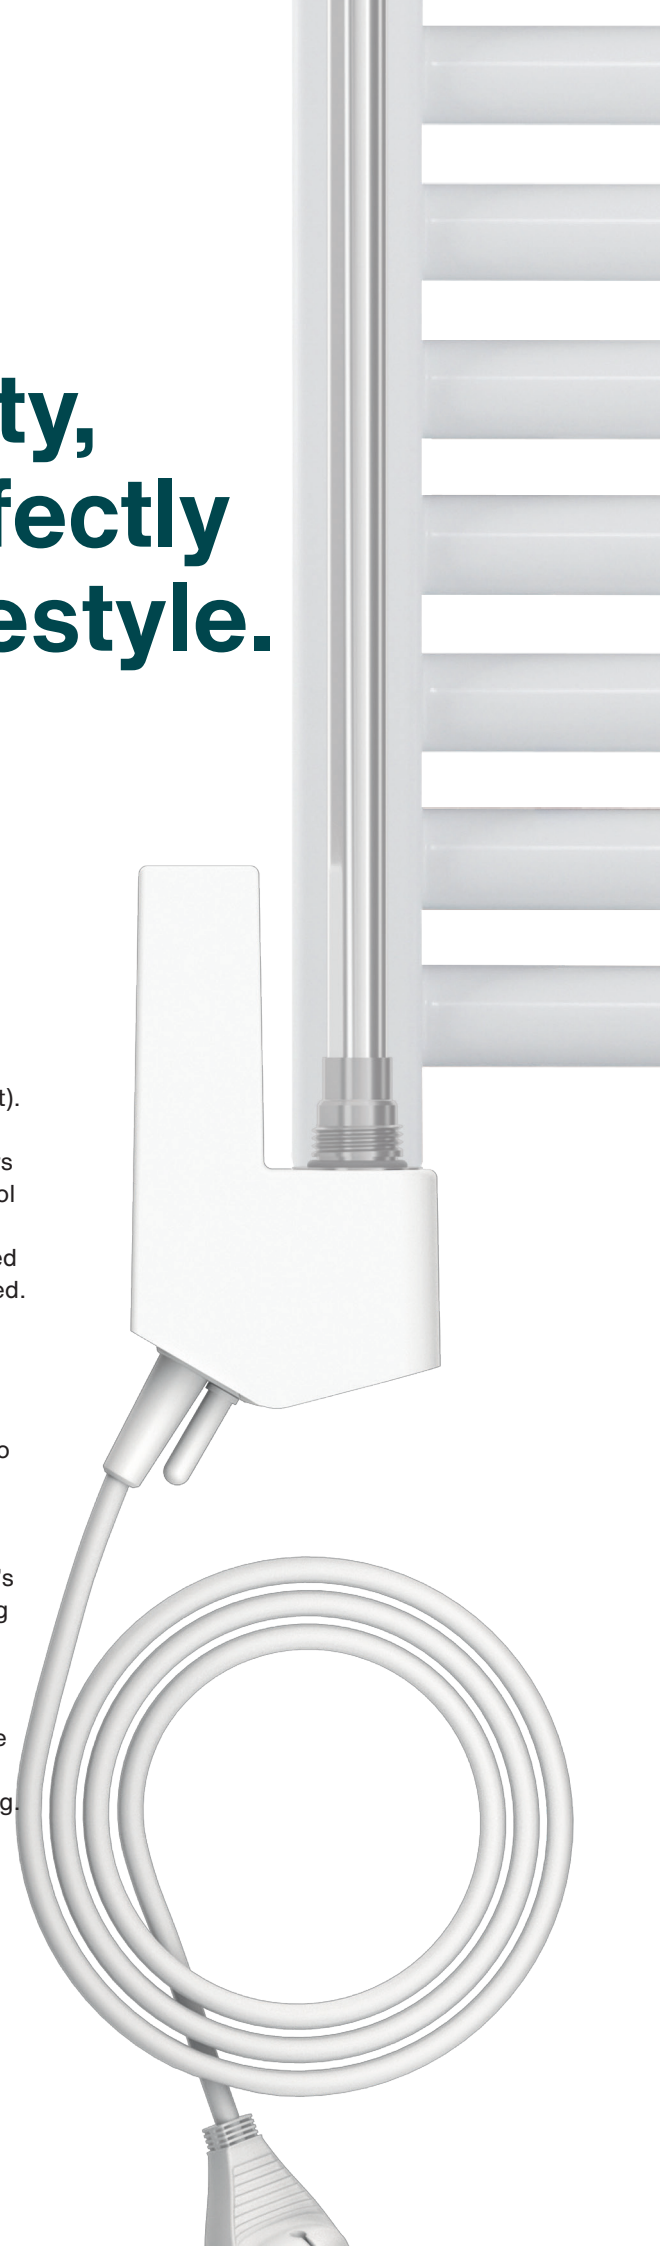

The Immersion Heater Design (IHD) is a modern heating solution, either integrated into your towel radiator or available as a retrofit accessory (kit). Designed for versatility, it seamlessly matches your radiator's colour and design. With features like surface temperature adjustment, the IHD offers comfort and ease of use. Operate it effortlessly using the Remote Control Easy (RCE), the Zehnder Connect app on your smartphone, or both together for even greater flexibility and comfort. A quick guide is included for fast setup. If purchased separately, professional installation is required. Enjoy intelligent heating with the IHD, enhancing both functionality and style in your home.

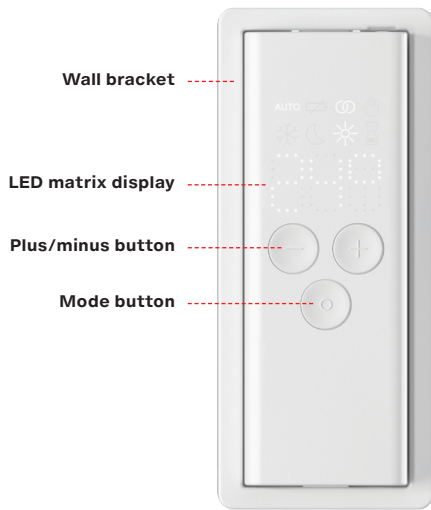

Seamless Design Integration – With its compact build and a range of colour-matching options, the IHD immersion heater blends discreetly into your radiator's design.

Flexible Fit for Any Space – The IHD offers a complete heating solution with customizable finishes – ensuring seamless adaptation to your room's layout and style. This flexibility makes it ideal for a wide range of building types and renovation scenarios across diverse markets.

Comfort & Safety through Temperature Control – Adjustable surface temperature for enhanced user comfort. Users can set the desired surface temperature to suit individual comfort levels and seasonal needs. This ensures a comfortable indoor climate and promotes a sense of well-being.

Wall bracket

LED matrix display

Plus/minus button

Mode button

1 Easy remote control

The Easy remote control is supplied with the IHD product variants, and is designed to manage basic functions used on a daily basis, such as switching the unit on or off and adjusting the room temperature. A wall mount is provided for installation at a convenient height, and the remote control can be taken out of the mount for use. The remote control can also be used without a base mount.

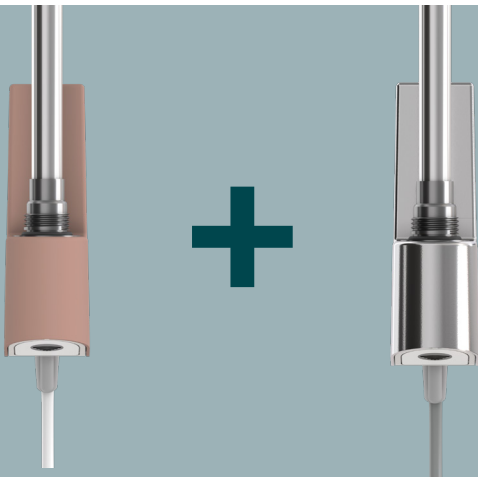

Comfortable control at a convenient height

2 Zehnder Connect app

With the Zehnder Connect app, you can control radiators via a Bluetooth-enabled smartphone and set up additional functions, such as daily or weekly programmes and other advanced features.

Smart controls with precise settings

Available in the radiator colour and in a chrome version

Easy to use in every way

The Zehnder Immersion Heater Control (IHC)

The Immersion Heater Control (IHC) is the all-rounder among the new Zehnder immersion heaters. Thanks to its modular operating concept, it suits a wide range of needs and is extremely user friendly.

Choose how to control the radiator: directly using the dial, with a remote control or using the handy Zehnder Connect app.

Every option is intuitive and self-explanatory. The LED matrix display shows the current operating status in a clear and simple way. In addition to its easy, comfortable range of controls, the IHC is also sustainable, as the electronic control unit can be replaced independently from the immersion heater.

LED matrix display

Rotary dial

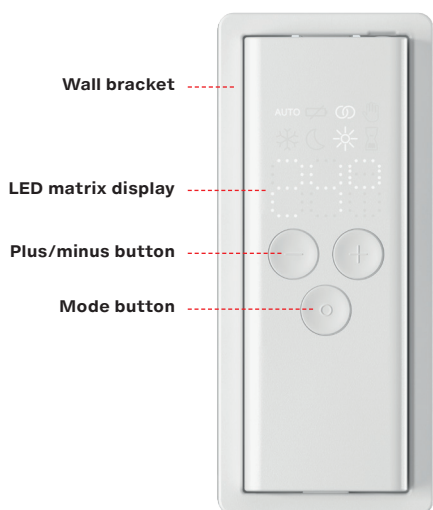

Available in three different colours
(black, white and grey) with a modern
design featuring an LED matrix display

1 Control directly from the immersion heater

Press and rotate the base to switch between the various heating modes and adjust temperatures and configurations.

Simple, intuitive control without additional devices

2 Easy remote control

The Easy remote control, which can be ordered separately, is designed to manage basic functions used on a daily basis, such as “On/Off” and “Adjust room temperature”. A wall mount is provided for installation at a convenient height, and the remote control can be taken out of the mount for use. The remote control can also be used without a base mount.

Comfortable control at a convenient height

3 Zehnder Connect app

Use the Zehnder Connect app to control radiators via a Bluetooth-enabled smartphone, with options to set up additional functions such as a weekly programme.

Smart controls with precise settings

Sustainable and easy to integrate

The Zehnder Immersion Heater Easy (IHE)

The Immersion Heater Easy (IHE) is an integrated option for smart home systems with on-site control.

The new technical Zehnder patented solution reduces output in the upper temperature range to 50%, limiting temperature fluctuations and saving energy. This also extends the immersion heater's service life, making your bath more sustainable.

#ZehnderIHE
#Sustainability
#EnergyEfficiency
#LongerLifecycle
#EasyIntegration

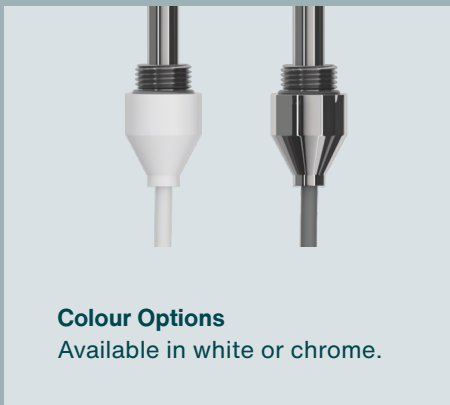

Easily compatible with external control options.

Immersion Heater Easy IHE – a simple and integrative solution with a fixed temperature limit, ideal for use with external control systems (e.g. building management systems).

Example of an external control option: Timer switch with rotary dial for time setting.

Colour Options
Available in white or chrome.

studio
collection

The rhythm of warmth – creating a fusion between nature and architecture, the latest towel radiator design by renowned design studio King & Miranda exclusively for Zehnder, the Tetris is inspired by the flow of a river and the rhythm of flight.

This philosophy translates into a product which balances its proportions and has space to breathe. The clean lines are accentuated by precision manufacturing techniques, creating an almost seamless construction.

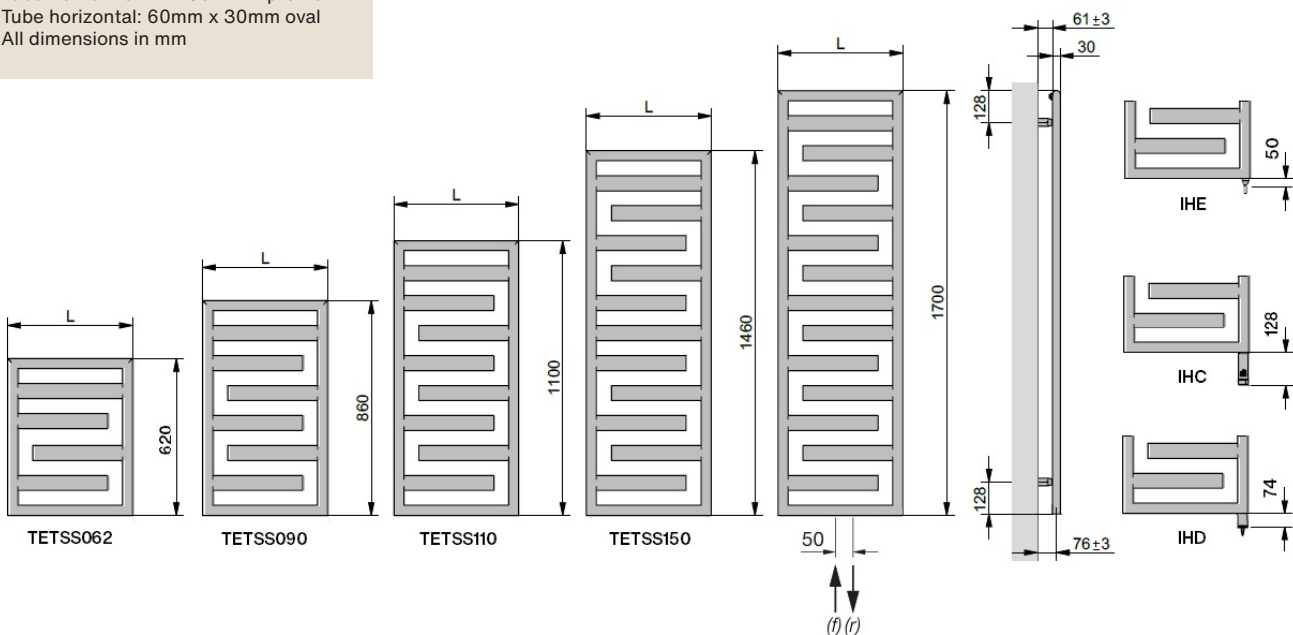

Easy remote control
(optional accessory for IHC)
